

Chemical Policy Calling Script

Hi, this is _____ calling from the Minnesota Public Interest Research Group, MPIRG. We are members of Healthy Legacy, a statewide public health coalition seeking to protect families from toxic chemicals. It would be great if the senator could meet with them and their constituents to talk about this important issue.

As the healthcare debate rages it's amazing to me how people are not talking about chemical contamination and prevention of illnesses.

The person to contact about a meeting is Lindsay Dahl and her email address is lindsaydahl@saferchemicals.org!

Thanks so much.
